

Tatou S1 (E26 FL/HL), White - Specification Sheet
by Patricia Urquiola, 2012

| | |
|-------------------------|--|
| Mounting | Ceiling Pendant |
| Lamp (Bulb) Description | 1 x 75W E26 T10 Halogen (Not Included) |
| Canopy Dimension | Diameter 4.4" - 0.75" high |
| Environment | Indoor - Dry Location |
| Dimming | Phase-cut Dimming / Triac Type |
| Finish | White |

Technical and Product Description

"Tatou began life as a luminaire that crosses a traditional dome style with a surface that is interpreted through a creative language to screen and let the light filter through from inside. The first prototypes were suspension models, but they immediately bred into a family. Development in various sizes and situations in the domestic environment came naturally. The process began by looking for different ways to reconstruct membranes, conceived like Japanese armor: a series of metal buckles cleverly united by tapes with a powerful emotional value. There was then a process of simplification into overlapping, perforated, vertical bands riveted together. We translated the design into a mass production process by transitioning to injection moulding. The overlapping of these bands has been crystallized in three-dimensional leather, a variable section mould and by the geometric pattern. With Flos, the challenge was to obtain a mass produced product, while retaining strong artisan connotations. Tatou is French for armadillo: the mammal famous for its structure made up of plates of bone covered with a protective layer of horn. The word "tatou" has an emotional sound to it, which I think is consistent with the emotional function of this object." - Patricia Urquiola

Tatou S pendant lamp provides diffused lighting. External diffuser in polycarbonate. Internal diffuser in injection printed opal polycarbonate. The socket accommodates either compact fluorescent or halogen lamp bulb.

Electrical

| | |
|-----------|------|
| Voltage | 120 |
| IP Rating | IP20 |

Physical

| | |
|-----------------------|----------------------|
| Cord Length (inches) | 106" - Clear |
| Construction Material | Polycarbonate, Steel |
| Weight | 2.6 lbs |
