

Toio, Titanium Special Production - Specification Sheet
by Achille and Pier Giacomo Castiglioni, 1962

Mounting	Free Standing
Lamp (Bulb)	1 x 300W PAR 56/MFL Incandescent (Included)
Description	
Environment	Indoor - Dry Location
Dimming	Dimmable
Finish	Titanium

Technical and Product Description Toio is the humorous translation of the English word “toy” coined by the designers of this inventive lamp that has an industrial look. The Toio floor Lamp is a timeless design that has won many awards and has been placed in the Museum of Modern Art in New York as part of their permanent collection.

The Toio floor lamp has an enamel steel base which supports a hexagonal nickel plated brass stem and along the lamp's nickel-plated brass hexagonal stem are fishing rod rings used to guide the electrical cord from bulb to transformer. A cleat on the base, like that found on a boat or ship, serves as a functional element designed to keep the cord neatly coiled in when the lamp is adjusted to a lower height.

The lamp can be placed in any indoor area. It comes with an incandescent bulb and provides indirect light with an adjustable height. Available in black or red finish.

Inspiration Behind the Design:

The contemporary floor lamp was designed by brothers Achille and Pier Giacomo Castiglioni, who got the inspiration from a car headlight imported from the United States in 1962, the same year it was designed.

Electrical

Voltage	120
Switching	ON-OFF switch on power cord
IP Rating	IP20

Physical

Cord Length (inches)	97" - Black
Construction Material	Stainless Steel
Weight	18.07 lbs

PR-FS002726 Titanium

Dimensional Image

Lamping (Bulb)

300W PAR 56/MFL Halogen
