

Tatou S1 (E26 FL/HL), Black - Specification Sheet
by Patricia Urquiola, 2012

Mounting	Ceiling Pendant
Lamp (Bulb) Description	1 x 75W E26 T10 Halogen (Not Included)
Canopy Dimension	Diameter 4.4" - 0.75" high
Environment	Indoor - Dry Location
Dimming	Phase-cut Dimming / Triac Type
Finish	Black

Technical and Product Description

"Tatou began life as a luminaire that crosses a traditional dome style with a surface that is interpreted through a creative language to screen and let the light filter through from inside. The first prototypes were suspension models, but they immediately bred into a family. Development in various sizes and situations in the domestic environment came naturally. The process began by looking for different ways to reconstruct membranes, conceived like Japanese armor: a series of metal buckles cleverly united by tapes with a powerful emotional value. There was then a process of simplification into overlapping, perforated, vertical bands riveted together. We translated the design into a mass production process by transitioning to injection moulding. The overlapping of these bands has been crystallized in three-dimensional leather, a variable section mould and by the geometric pattern. With Flos, the challenge was to obtain a mass produced product, while retaining strong artisan connotations. Tatou is French for armadillo: the mammal famous for its structure made up of plates of bone covered with a protective layer of horn. The word "tatou" has an emotional sound to it, which I think is consistent with the emotional function of this object." - Patricia Urquiola

Tatou S pendant lamp provides diffused lighting. External diffuser in polycarbonate. Internal diffuser in injection printed opal polycarbonate. The socket accommodates either compact fluorescent or halogen lamp bulb.

FU776230 Black

Certifications

Lamping (Bulb)

75W E26 T8 Halogen

Electrical

Voltage	120
IP Rating	IP20

Physical

Cord Length (inches)	163" - Clear
Construction Material	Polycarbonate, Steel
Weight	2.64 lbs
