Canopy Dimension	Diameter 4.3" - 0.75" high
Environment	Indoor - Dry Location
Dimming	Phase-cut Dimming / Triac Type
Finish	Black
Technical and Product Description	The AIM is a form of modern pendant lighting that is constructed from a varnished aluminum sheet with a photo-etched optical polycarbonate shade and an internal reflector of a photo-etched ABS. The cable can be adjusted to allow the fixture head and light distribution to be aimed. The cable has a total length of 29 ft 5 inches (9m) allowing the lamp to be suspended up to 9 ft 8inches (3m) from the ceiling. The AIM emits direct lighting. The minimalist pendant lamp has two versions and is available in black or white. Please select model of choice when ordering. 1. AIM - Hardwired: Connects to wall-switch by hardwiring to a 120V junction box (no additional LED driver is required). Comes with a 5" diameter canopy. 2. AIM - Plug-in: Switch and cord that you can plug into a socket (NOT dimmable) NOTE: If multiple fixtures are to be hardwired to a single junction box, you must purchase a special canopy other than the one that is included. This canopy will allow 3-5 pendants to be hardwired to one junction box (this does not apply to plug-in version).

FU009530 Black

Dimensional Image

Electrical

Voltage	120
Switching	Dimmable with Leading Edge (Triac) dimmers
IP Rating	IP20

Physical

Cord Length (inches)	354" - Black
Construction Material	Aluminum, Polycarbonate
Weight	3 lbs
